

## On the MAGNA CARTA

The ***Magna Carta*** was an attempt to recognize ***Human Rights and Freedoms***. The Good news is that the UDHR - ***Universal Declaration of Human Rights*** is "A Magna Carta for all humanity." The UDHR, an International Covenant, was created in 1948....

In the link below you will see "The Universal Declaration of Human Rights: - ***A Magna Carta for all Humanity***" is a ***UN document***. The UN holds the ***real rights***, although tyrants have managed their way in to control the spread of information.

Note that the ***ICCPR and the ICESCR were derived from the UDHR***. All countries have signed these International Covenants. This is what they don't want you to know. ***These fundamental human rights "MUST" be upheld by all humans on every land.***

The Judges, Lawyers, solicitors, officers, agents of every Country (aka corporation), etc will only revert back to these. There is no need to bring up the Magna Carta, as this will lead to labeling you as an ***OPCA litigant (i.e. crazy strawman argument)***. ***You are a human with a live birth record and you can stand upon the rights from the International Covenants which are the supreme law, "rule of law" over any Countries Constitution which are merely corporate constitutions.***

Help us all spread the word.

Peace, Love and Cheers!
